DETAILED ACTION

Allowable Subject Matter

1. Claims 7, 13-14, 16-21, 33-34 and 63 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The Applicants' remarks filed on August 22, 2008, in response to the Office Action mailed on 02/22/2008, were carefully reviewed. As the results, claims 7, 13-14, 16-21, 33-34 and 63 are allowed with the reasons set forth in the past paragraph on page 2 of the remarks, which is repeatedly presented as followings:

"Those skilled in the art will understand with particularity the scope of the term 'bridge circuitry', particularly in light of applicants' detailed description at page 5, line 20 et seq., which is consistent with network bridge definitions and standards under IEEE 802.1d Applicants appreciate the breadth in which examiner's are required to construe claim terminology. But there is no doubt here. Applicants' terms are to be construed in the context of applicants' specification in light the understanding of those skilled in the art. As such, applicants' terminology, in its present form, without further amendment, sufficiently and clearly encompasses network bridges involved in the forwarding of digitized data packets, not the analog signal circuitry that the examiner points to in the Sakabe reference. The lines are clear."

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
